

## Identifying market size on your entries

All submitting organizations (stations) have been pre-assigned to their appropriate market size in the Entries Express system. When selecting a category for entry, the list of categories presented should already be associated with the appropriate market size.

However, errors do occur, so we encourage you to double check each entry email that you receive, once your submission is complete. The last letter of the **Category** is the market size identifier, as noted below.

### Entries Express - Email Copy of Entry

Entry ID: <b>R25J-1</b>	Fee: <b>\$25</b>
Category: <b>R25J</b>	
Title: <b>Test 11-26-19</b>
